

# Motorised Retractable Microphone Unit

## OVERVIEW

SCHT is a universal motorised retractable system for gooseneck microphones. Its ability to hide the gooseneck microphone under the table with single press resulting in a tidy and elegant conference room once the room is not in use.

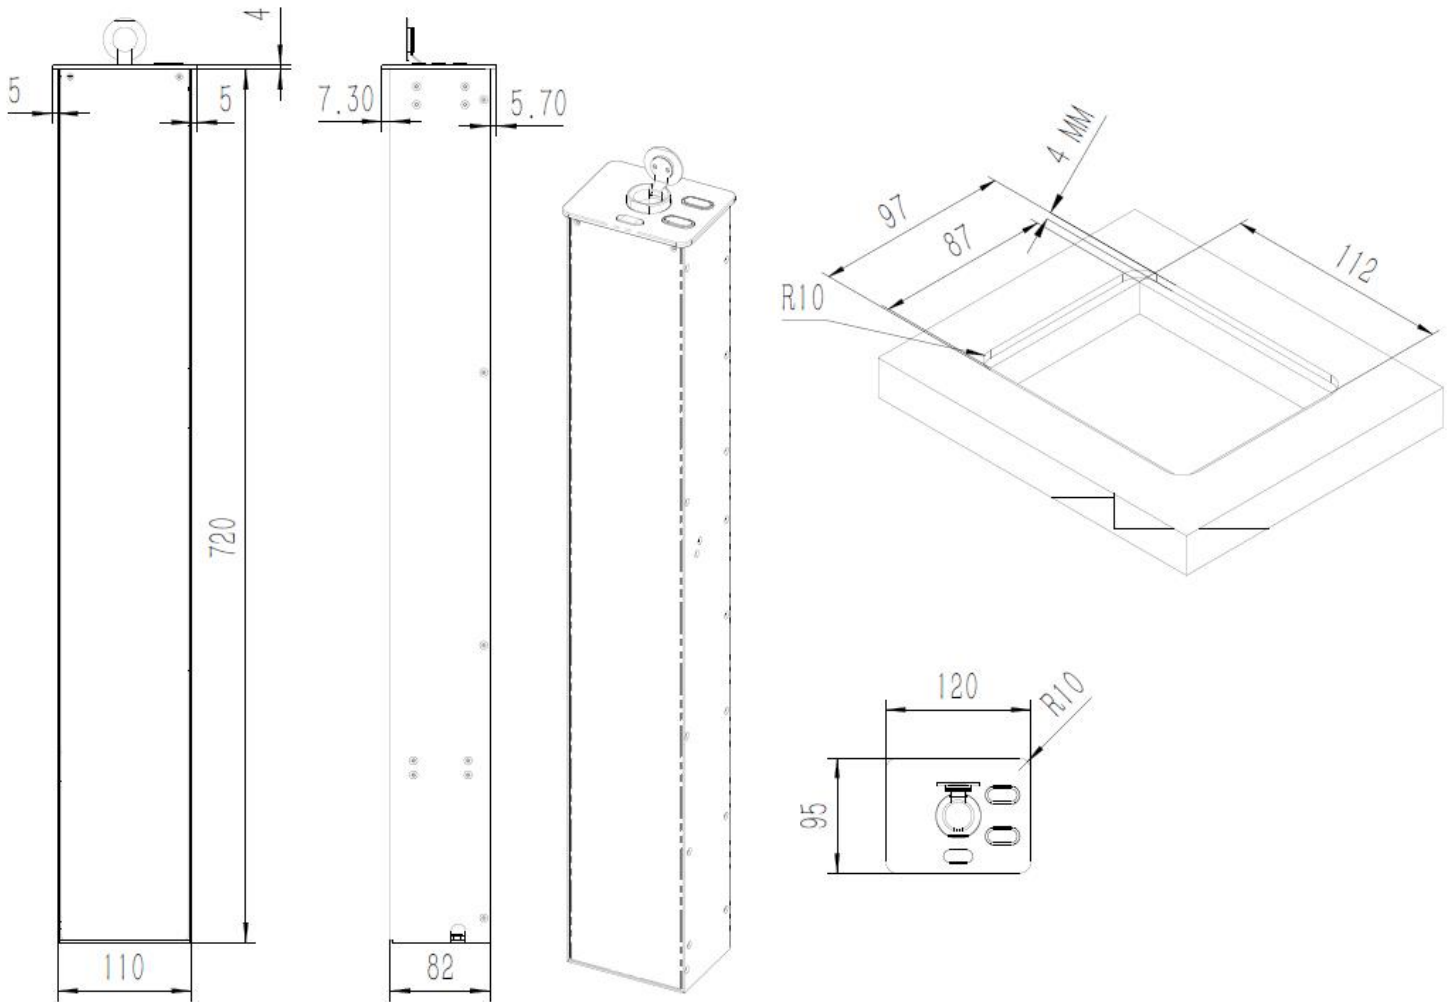

Users are able to control the microphone using the buttons on the panel to raise lower the microphone or they can control the single or multi units via RS485 communication ports using any 3<sup>rd</sup> party controller to simplify the whole operation.
