# SCRS

Paperless Multimedia Conference Solution

Overview

The SCRS Paperless Multimedia Conference Solution is the latest smart conference solution from SEADA Technology. It works with SEADA's Retractable monitors to offer an all in one total solution for any size of conference room applications, ranges from corporation, government to military.

Each Client Terminal is equipped with a HD capacitive touch LCD and all meeting data, voting information, control information and video signals are transmitted via a Cat.5e/Cat.6 network cable with encrypted protocols which offers the simple setup and security.

Pre Meeting

Create Meeting — Arrange Seats — Setup System — Manage Material — Manage Attendees — Upload Notes

Meeting

Sign in — Share Screen — Voting — Name Plate — Meeting Notes — White Board

Post Meeting

Delte Notes — Encrypt Files — Export Files — Archive Notes
